Small Business Classification Definitions:

Small Business (SB) - A Small Business that is independently owned and operated by an American citizen and which is not dominant in its field of operation. The size definition will vary from industry to industry and is based on the North American Industry Classification System (NAICS) codes either by number of employees or gross annual sales. The website for Size Standard and NAICS lookup is: https://eweb1.sba.gov/naics/dsp_naicssearch2.cfm

Alaskan Native Corporation or Indian Tribe (ANC) - An ANC means any Regional Corporation, Village Corporation, Urban Corporation or Group Corporation organized under the laws of the State of Alaska in accordance with the Alaska Native Claims Act, as amended by 43 U.S.C 1601. In addition and as defined in federal regulations, a tribally owned business (concern) means any business (concern) that is at least 51% owned by an Indian tribe. An Indian tribe is any Indian tribe, band, nation or other organized group or community of Indians, including any ANC, which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians or is recognized as such by the State in which the tribe, band, nation or community resides.

Historically Underutilized Business Zone Small Business (HUBZone) - An SB with its principal office located within a HUBZone, which includes lands on federally recognized Indian reservations; owned and controlled by one or more U.S. citizens and at least 35% of its employees must reside in a HUBZone. Other individuals can qualify if they show a "preponderance of the evidence" that they are disadvantaged. All individuals must have a net worth of less than \$750,000, excluding the equity of the business and primary residence. The website is: http://sbgov.org/government_opportunities/federal_contracting_guide/small_disadvantaged_business.htm. Must be certified as SDB by the Small Business Administration.
