In addition, all alcoholic beverage purchases for promotion & development activities may only be allowed when deemed appropriate, reasonable and necessary for the nature of the activity. Costs and consumption levels must be closely scrutinized to assure they are normal and reasonable, and that funding is provided from an appropriate source not compromising institutional integrity. (NOTE: alcoholic beverages can never be served in conjunction with training. Such an inclusion automatically designates the entire activity as either an unallowable expense, or an authorized business function.)

6651 SPONSORED PROGRAMS SPONSOR FUNCTIONS
Use this object code with 53 accounts only for activities associated with meetings and conferences.

A meeting or conference must include a group of people which formally convene either on- or off-campus for a defined purpose and must be a benefit to the project. Attendees should include a significant number of people who are non-CSU employees and/or students. Advance formal announcements of the time and place of the meeting and a formal agenda are indicators of approved meetings or conferences as defined by Uniform Guidance. Formal group meetings or conferences being conducted in a business atmosphere may charge meals to the project only if such activity maintains the continuity of the meeting and to do otherwise would impose arduous conditions on the meeting participants.

In order for the function to qualify as a valid expense on a 53 project it must be allowable under both the provisions of Uniform Guidance and under the terms of the specific award; it must be allocable, that is, of obvious direct benefit to the 53 project; and it must be reasonable. If a sponsored function is planned for a project, it should be included and justified in the proposal budget, and approved by the sponsor. If the need for an unplanned function arises, prior sponsor approval may be required. If prior sponsor approval is not obtained and the sponsored function meets the definition above, a statement explaining how the function is necessary to the project must be submitted to and approved by Sponsored Programs. Justification must include the agenda, a list of attendees, purpose, place and date of meeting, an explanation of why the function was not included in the original budget, and how the function is of benefit to the project.

Examples of costs which are not allowable on 53 accounts: refreshments at a student and/or faculty meeting; principal investigator has lunch/dinner with a colleague[s] to discuss research; business meals when individuals decide to go to breakfast, lunch or dinner together when no need exists for continuity of a meeting.
